

PRODUCT TECHNICAL SHEET

DESCRIPTION	TYPE	PRODUCT CODE	SIZE	PARTS	SEAL TYPE
5"x7" Hydraulic Liner Hanger [no cement]	HYDRAULIC	LH-LCL-HYDRALINER-7	5"x7"	Ball Seats and Installation Tools	Nitrile/ fluorine rubber

LH-LCL-HYDRALINER-7 hydraulic tail pipe hanger is a single cone single row slip structure. After pitching, high-pressure liquid to promote the piston, to achieve sitting.

Features

- Hydraulic control implementation of sitting.
- SQ-type ball feeder supporting the use of horizontal wells can be used, high-angle wells.
- Cylinder, body and other major components are made of high strength alloy structural steel, to ensure its mechanical properties.
